EDUCATION

Dublin Business School, Dublin Sep 2022 – May 2026

BSc (Hons) Computing, Data Analytics & Big Data, **First Class Honours (74.36%)**

PROJECTS

Where Is Ireland Building? 2026

Python, SQL, DuckDB, Pandas, Plotly, Streamlit

- Joined two CSO datasets (housing completions and population) across 26 counties from 2017 to 2025 into one analysis-ready dataset using Pandas and DuckDB SQL.
- Found that Dublin accounts for 35.6% of national completions, while high-growth counties such as Kerry and Mayo lag behind their population growth.
- Deployed an interactive Streamlit dashboard for exploring county and provincial housing trends.

FugaML 2026

Python, scikit-learn, XGBoost, MLflow, FastAPI, Docker, AWS

- Built a config-driven churn prediction pipeline, comparing four models in MLflow and reaching 0.863 ROC-AUC on the Telco Customer Churn dataset.
- Used SHAP to identify month-to-month contracts and low tenure as the strongest churn drivers, giving retention teams clear targets.
- Served predictions through a FastAPI endpoint driven by a YAML config, containerised with Docker and deployed on AWS App Runner, with pytest coverage of core functions.

EXPERIENCE

Kitchen Porter, Lisdoo Bar & Restaurant, Dundalk Feb 2025 – Present

- Handled multiple concurrent tasks under time pressure in a high-volume kitchen across varied shift patterns.

Factory Operative, Gate Gourmet, Dublin Airport May 2023 – Feb 2025

- Met strict quality, hygiene and safety standards in an audited, high-volume production environment, following SOPs within a large multicultural team.

Housekeeping Assistant, Bellingham Castle, Co. Louth Jun 2022 – Mar 2023

- Kept guest-facing areas to premium standards, managing my own priorities and time independently.

TECHNICAL SKILLS

- **Languages:** Python, SQL
- **Data & ML:** Pandas, NumPy, scikit-learn, XGBoost, MLflow, EDA, feature engineering, classification
- **Visualisation & BI:** Power BI, Tableau, Excel, Plotly, Seaborn, Matplotlib, Streamlit
- **Tools:** Git/GitHub, Docker, AWS, FastAPI, DuckDB, Jupyter

CERTIFICATIONS

- Google Data Analytics Professional Certificate (2022)

LANGUAGES

English (native), Spanish (fluent, ALCE B2 certified), Catalan (fluent)
